5 tablespoons milk or water (water will make icing pure white)
1/2 teaspoon salt
1 teaspoon vanilla
1/4 teaspoon almond flavoring or 1 drop Loran Almond Oil
1/4 teaspoon butter flavoring or 1 drop Loran Butter Oil

Mix at high speed for 4 to 5 minutes and then at low speed for 2 minutes.

Before pushing the Cake Imprinter into the icing, the icing should be dry to the touch. Push only enough for you to see the letters/design.
